To Whom It May Concern,

This letter is to serve as a letter of recommendation for Jorge Mares in the role of Software Engineer. I had the privilege of mentoring Jorge during his internship at Lucidworks from February 2023 to July 2023, and I am confident in his abilities and growth potential.

Throughout his internship, Jorge demonstrated exceptional dedication and a strong work ethic. He approached his responsibilities with enthusiasm and a genuine desire to learn and grow as a software engineer. I was particularly impressed by his ability to take on a development task and execute it with a high level of proficiency.

Jorge was given the opportunity to research, plan, and execute a development task during his internship. He approached this task with an open mindset and was ready to learn and build on his knowledge. His ability to understand and apply complex concepts allowed him to gain valuable experience in a software engineering business environment.

Not only did Jorge complete the assigned task successfully, but he also went above and beyond by providing ongoing updates and maintenance. He displayed a clear understanding of the project's objectives and consistently delivered results that exceeded expectations. Moreover, Jorge ensured that the tool he developed was well-documented for ease of use and future maintenance.

In addition to his special project, Jorge proved to be a valuable team player. He actively participated in ongoing engineering initiatives. He contributed innovative ideas, and collaborated effectively with colleagues.

Overall, I have no hesitation in recommending Jorge Mares for any software engineering position. His motivation and ability to learn and adapt make him an asset to any organization. I am confident that he will continue to excel and contribute positively in any environment.

If you require any further information, please do not hesitate to contact me. I am more than willing to provide additional details about Jorge's performance during his internship. Thank you for considering Jorge Mares for this position. I believe that he will be a valuable addition to your team.

Sincerely,
Jason Malone

To whom it may concern,

I, the CEO of Manolo Barbershop, have had the pleasure of working with Jorge Mares on building and designing our barbershop website. We had a google template website before which got the job done, but as we are looking to expand our business, we needed a website that could stand out from our competition. As we spoke to Jorge and the rest of his team, we knew that most of our clients view our website on a mobile device to book an appointment, so we told the team that we wanted to make the website look excellent on mobile devices. The team exceeded my expectations in making the website look good on mobile devices and across most platforms, i.e tablets, computers, etc.

Aside from the website, it was indeed a pleasure to work with Jorge and his team, from a professional point of view. The communication was excellent and the productivity was great. I was expecting the website to take a lot longer than the time it actually took which was two weeks. For a full-page application, the team managed to make a fully functional website that has met our standards, and we have no doubt that Jorge Mares, with the skills he has, will make an outstanding candidate.

Sincerely,

CEO of Manolo Barbershop
Edgar Perez Alexis Bustamante
