Full-Stack software engineer bilingual in English and Spanish ready to implement my knowledge and build amazing programs to fit your needs. Known as a fast learner and innovative problem solver passionate about developing any type of application.

TECHNICAL SKILLS

- JavaScript (Node.js, Express.js, React.js,)
- HTML/CSS (Bootstrap, Materialize)
- Python
- SQL (MySQL, Sequelize)
- MongoDB (Mongoose)
- MVC and MERN Architectures
- GraphQL
- RESTful Api's
- Bash

SKILLS

- Adaptability
- Multitasking
- Consistent
- Quality Analyst
- Researcher
- Fast Learner
- Teamwork
- Problem Solver

APPLICATIONS

- Visual Studio Code
- Insomnia
- MongoDB Compass
- MySQL Workbench
- Git/GitHub/Git Bash
- Heroku
- Docker
- Postman
- Google Cloud Platform (BigQuery, Kubernetes, Buckets)
- Slack
- Jira
- Jenkins
- Lucidworks Fusion
- Sharepoint
- Domo

EXPERIENCE

Software Engineer, Lucidworks, Jan 2023 - Jul 2023, San Francisco, California

- Collaborated with the QE team to assess and evaluate different connectors for Fusion, conducting thorough testing and analysis to determine their effectiveness and compatibility.
- Developed and implemented a streamlined data analytics workflow using Domo, Jenkins, Python, and Google BigQuery to track and monitor the status of Jenkins jobs.
- Designed and created interactive dashboards on Domo using the Google BigQuery connector to visualize and analyze the Jenkins job data, providing real-time insights to the team.
- Implemented scheduled queries and a Jenkins stage to automate the data retrieval and update process, ensuring the dashboards were always up to date with the latest information.
- Conducted thorough testing and quality assurance for Fusion with each release, ensuring the stability and functionality of the platform.

Freelance Web Developer, Manolo Barbershop, Oct 2022 - Nov 2022, Riverside, California

- Teamed with colleagues to solve problems and come up with creative solutions.
- Worked with GitHub, Gleek, Codepen, Bootstrap and other industry-leading development tools.
- Designed, wrote and maintained high-quality software.
- Used MERN stack architecture.
- Analyzed user needs and workflows to create easy-to-use interfaces

Contracted Web Developer, Madeline's Nail Boutique, Aug 2022 - Sep 2022, San Bernardino, California

- Created a website in a team environment for our client following the MVC architecture.
- Checked structure, conformance and browser compatibility of code with validation processes.
- Created innovative designs with use of programming languages.

- Listened to customer requests and specifications and made suggestions to appropriately fulfill needs.
- Tracked industry changes and integrated innovative techniques into creative web designs.

Customer Service Representative, Lineage Logistics, Aug 2021 - Sep 2022, San Bernardino, California

- Answered customer questions about policies and procedures with friendly and knowledgeable approach.
- Investigated and resolved customer concerns related to order inquiries and delivery tracking.
- Maximized satisfaction by anticipating needs and consistently offering expert support.
- Collaborated with colleagues and co-workers to deliver quality customer experience.

Warehouse Associate, Amazon, Jan 2020 - Nov 2020, San Bernardino, California

- Moved large quantities of merchandise using pallet jacks, dollies and hand trucks.
- Picked and packed as many as 50 orders per hour with consistent accuracy.
- Achieved organizational targets by consistently placing items in correct locations and resolving discrepancies.

EDUCATION

Certification: Software Engineer

University of California, Riverside, Riverside, CA, Oct 2022

Computer Science

Crafton Hills College, Yucaipa, CA
